Emil Teiger began in 2005 as an electronic live act. After years with great gigs from Basel over Zurich till Tokyo he went back to his studio in Basel. And now he returns with his groove, Teiger style.

Inside this release, you will find four tracks of Emil Teiger. With Dettfetzt and Rocker Toes there are two great tracks with an electro touch, Thunderbird is a deep groove track and Let's Pretend to be Human speaks for himself. Also you'll find a Remix of Let's Pretend to be Human from Mikall Svender which is a more pumping version than the original.

These tracks were supported by: Paul Van Dyk, Hernan Cattaneo, Nic Fanciulli, Richie Hawtin, Slam, Luciano, Paco Osuna, Terry Francis, Claude VonStroke, Angel Molina, Michel De Hey, Franco Bianco, De:Bug, Tsugi Magazine, Ministry of Sound Radio, RTE Digital Radio - Pulse, rt-transmissions, Resident Advisor, and many others!
