**English Press Release**

On the 19th of May 2011 **Electrophil Records** will celebrate their third release with a label night at the famous **Nordstern** where they will present the **EPR003 “Step by Step EP” from Benjamin Eberenz**. Benjamin’s musical recipe is combines a main dish with a dessert. For the main dish he takes a heavy pumping bass line combined with spicy percussions, a few Tech House-elements agitated with some good old House music. Then he stirs this mix until it has blended a bit. Finally to achieve his main dish, he seasons it with some well known old box office hits. For dessert he serves always a “Bombe Surprise”.

Inside this release, you will find three tracks of Benjamin Eberenz. Fast Step is a Deep House Track which is mashed up with some countrymusic. Small Step is a track with Apollo 11 radio samplings and with Next Step you will find a pumping Tech House track. There is also a Remix of Fast Step on the EP which is made by Steve Cole.

But make yourself your own opinion and listen this release ! And buy these smashing tracks on many online stores
